

Fig.-1

The college invites feedback on the current syllabi from the alumni. There are 24 academic departments in the college and the feedback was collected from 380 alumni members. The data was collected with the help of a structured questionnaire. The responses received from the respondents are represented in Fig-1.

Majority of the alumni (98.94%) revealed that the assessment strategies are explicit in the curriculum. About 96% of the respondents reported that the syllabi gave them a clear idea about the purpose of the course and 94% of the members reported that the curriculum was useful at work place.

More than 92% of the respondents felt it challenging and they had easy access to prescribed / reference books, whereas more than 80% of the members felt that the syllabi fulfilled their objectives after the completion of the course and also it had developed a sustained interest in them. Only 67% of the respondent reported that the syllabi had optimum load without any pressure.
